

Your war

I can't take my eyes of what I see
Covered faces in a pool of blood
And they laugh about their lives
That ain't good enough for their god

**So this is your war
It's hard to ignore
Just a mad price to pay for your paradise
So this is your war
It's hard to ignore
Just a mad price to pay**

They broke your faith
You needed to fight
You call it a reason to fight
But so many dyin', will not see the dawn
'Cause you will not put down the gun until your mission is done
Those innocent lives won't be justified
Justified

**So this is your war
It's hard to ignore
Just a mad price to pay for your paradise
So this is your war
It's hard to ignore
Just a mad price to pay**
